Profile

I have been seeking a career that I could be passionate about for some time. During the first lockdown when wanting to use my time wisely, I came across the magic of coding by chance and soon I had multiple books and online tutorials to follow.

When we emerged from lockdown I knew I had found a passion to pursue and I put my savings towards Le Wagon's part-time Web Development Bootcamp. This was a six-month bootcamp where I met some amazing people who I got to learn alongside, collaborate with, share ideas and by the end plan and execute a final project. I am looking for a job that will give me the opportunity to progress myself further as a developer.

Skills

Ruby on Rails, OOP, JavaScript, GitHub / Git, SQL, Command Line, HTML / CSS, Heroku

Education

Fullstack Web Developer, Computer Programming, Le Wagon 01/2022 – 07/2022 | London
24-week part-time coding bootcamp learning HTML, CSS, Bootstrap, JavaScript ES6, SQL, git, GitHub, Heroku and Ruby on Rails. Designed, implemented and shipped to production a clone of Airbnb and a Rails prototype social-media app called List-It.

Film & Video Production, University of Derby 2011 – 2014
First Class BA Hons Degree

Projects

Cookbook Web App

This was built using Ruby in an MVC pattern and also used web-scraping

Food Delivery App

This too was built with Ruby and implemented password-protected interfaces for different employees.

AirBnB Clone

This was built in a 3-person project team using Rails and AJAX.

Social Media / Listing App

List-It is a way to create, discover and share lists using a social-media interface. Using Rails, Devise, PGSearch, Stimulus and Vanilla Javascript.

Interests

I love to boulder in my spare time and would like to plan a climbing holiday. I play guitar and piano when I need to switch my brain off after some problem-solving. I read a lot of Stephen King - he was a lockdown discovery.
